

2-D Studio Art 2

OPTIMA ACADEMY ONLINE · FAMILY COURSE OVERVIEW · GRADES 9–12 · FULL YEAR · 1 CREDIT

~4¼ hrs per week · 50 min/day, M–F

About this overview. This document is an example of how the course might be taught. This page is drawn from the official course descriptions rather than a built Optima course, so the specific artworks studied, projects, and activities will be set by the teacher and may vary between the live school and On-Demand. Each teacher also leans into their own strengths and passions; the structure, expectations, and time commitment below are representative of the course as designed.

2-D Studio Art 2 deepens a scholar's ability to create meaningful visual work across multiple media. Scholars work in drawing, painting, printmaking, collage, and design, developing greater skill in composition, color, line, and visual organization. By studying how established artists approach these media, they refine technical ability and learn to make intentional compositional choices, creating work from observation, research, and imagination. VR and AI-assisted tools support analyzing artworks and developing an artistic voice. The course builds both technical mastery and visual thinking: learning to see what works in art, and why. Prerequisite: 2-D Studio Art 1.

THE YEAR AT A GLANCE

- | | |
|--|---|
| 1 Drawing and Mark-Making (strand)
Sketching and mark-making to plan and execute compositions, with a working sketchbook or journal throughout. | 2 Painting and Color (strand)
Color-mixing skill built on color and light theory, applied across painting media. |
| 3 Printmaking, Collage, and Design (strand)
Purposeful design across varied media, comparing what each medium does best. | 4 Composition (all year)
Manipulating and refining the elements of art and principles of design in work from observation, research, and imagination. |
| 5 Critique and the Artist's Eye (all year)
Evaluating exemplary works to set criteria, then applying peer and teacher critique as fuel for the next piece. | 6 The Growing Portfolio (all year)
Signed finished works and artist statements accumulate in an organized OneDrive portfolio; art careers and community art resources explored along the way. |

A TYPICAL WEEK

- Optima art courses run on a two-week cycle.
- Week 1: look closely at real artworks, learn the cycle's concept and technique, and complete sketch and exercise work.
- Week 2: create the cycle's finished piece and submit it with a short artist statement — every finished work is signed.
- Critique uses the Elements of Art and Principles of Design as its shared vocabulary.

TIME COMMITMENT

250 minutes / week

≈ 50 minutes a day, Monday–Friday

- Studio and technique time fill most of the scheduled minutes.
- Finished-piece weeks may run longer as work is refined and presented.

WHAT SCHOLARS NEED

- Art supplies for 2-D media: drawing pencils, paper, paint, and materials as assigned by cycle.
- A computer with reliable internet and access to Canvas, plus a way to photograph finished work for submission.
- Microsoft 365 and OneDrive (provided to every scholar) for the portfolio.

On-Demand (asynchronous). Scholars move through the course at their own pace, with due dates to keep the year on track. An Optima teacher is available throughout for support, feedback, and grading.

Live school. Live-school scholars take this same course on Optima's VR campus with a teacher and classmates, meeting daily on the school's schedule.
