

Art – Grade 2

OPTIMA ACADEMY ONLINE · FAMILY COURSE OVERVIEW · GRADE 2 · FULL YEAR

80 min per week · 2 lessons weekly

About this overview. This document is an example of how the course might be taught. This page is drawn from the Florida course description rather than a built Optima course, so the specific artworks studied, projects, and activities will be set by the teacher and may vary between the live school and On-Demand. Each teacher also leans into their own strengths and passions; the structure, expectations, and time commitment below are representative of the course as designed.

Grade 2 art deepens the experimenting begun in earlier grades, now across both two- and three-dimensional concepts and ideas. Scholars apply materials correctly and safely to express personal interests, manage their time and resources during the creative process, and learn that artists often try multiple solutions to one artistic problem. They begin using suggestions from others to improve their work, look closely at artworks from individuals, cultures, and times to describe what makes each distinct, and practice the difference between borrowing inspiration and copying another's ideas.

THE YEAR AT A GLANCE

1 Making Art (all year)

Two- and three-dimensional work with refined techniques, sequential procedures, safety habits, and growth in craftsmanship through purposeful practice.

3 Talking About Art (all year)

Discussing possible meanings in artworks, spotting skillful techniques in others' work, and using suggestions to improve one's own.

5 Art in My World (all year)

Art that promotes school and community events, designed everyday objects, working with peers, and using time well — early 21st-century skills.

2 The Artist's Eye (all year)

Employing the elements of art and principles of design on purpose; using personal experience to convey meaning.

4 Art Across Cultures and Time (all year)

Identifying how artists draw on cultural and life experiences, and comparing artworks across time and culture.

A TYPICAL WEEK

- Two short art lessons each week.
- Lessons pair looking and making: scholars study real artworks and ideas, then create with their own hands.
- Scholars practice trying more than one solution to an artistic problem and revising with feedback.
- Hands-on throughout — this course is built around real art materials, used correctly and safely.

TIME COMMITMENT

80 minutes / week

two lessons a week, about 40 minutes each

- Most weeks pair two short lessons of looking, learning, and making.
- Some projects span more than one lesson.

WHAT SCHOLARS NEED

- Basic art supplies: crayons, pencils, paper, child-safe scissors, and glue, plus materials as assigned.
- A computer with reliable internet and access to Canvas (with a grown-up's help).
- A space where making — and a little mess — is okay.

On-Demand (asynchronous). Scholars move through the course at their own pace, with due dates to keep the year on track. An Optima teacher is available throughout for support, feedback, and grading.

Live school. Live-school scholars take this same course on Optima's VR campus with a teacher and classmates, meeting twice a week as a specials class on the school's weekly schedule.
