

Art – Kindergarten

OPTIMA ACADEMY ONLINE · FAMILY COURSE OVERVIEW · GRADE K · FULL YEAR

80 min per week · 2 lessons weekly

About this overview. This document is an example of how the course might be taught. This page is drawn from the Florida course description rather than a built Optima course, so the specific artworks studied, projects, and activities will be set by the teacher and may vary between the live school and On-Demand. Each teacher also leans into their own strengths and passions; the structure, expectations, and time commitment below are representative of the course as designed.

Kindergarten art is a year of joyful exploration. Scholars try out many kinds of art media and processes — drawing, painting, cutting, shaping — while learning to use materials safely and care for their tools. Along the way they pick up real art vocabulary so they can describe what they made and the choices behind it. They make art from memory, imagination, and their own experiences; meet artworks from different cultures and places; and discover that art lives all around them, from museum walls to everyday objects designed by artists.

THE YEAR AT A GLANCE

1 Making Art (all year)

Exploring art processes and media in two and three dimensions, building fine-motor skill, craftsmanship, and safe habits with tools.

3 Talking About Art (all year)

Sharing finished work, naming the media used, and describing the choices made while creating.

5 Art in My World (all year)

Art that documents self and community, everyday objects designed by artists, and where artwork is displayed.

2 The Artist's Eye (all year)

First encounters with the elements of art: exploring where lines, shapes, and colors go in a personal artwork.

4 Art Across Cultures (all year)

Describing art from selected cultures and places, comparing artworks, and practicing good audience manners.

A TYPICAL WEEK

- Two short art lessons each week.
- Lessons pair looking and making: scholars see real art and ideas, then create with their own hands.
- Frequent sharing: scholars show their work and talk about what they made and why.
- Hands-on throughout — this course is built around real art materials, used safely.

TIME COMMITMENT

80 minutes / week

two lessons a week, about 40 minutes each

- Most weeks pair two short lessons of looking, learning, and making.
- Some projects span more than one lesson.

WHAT SCHOLARS NEED

- Basic art supplies: crayons, pencils, paper, child-safe scissors, and glue, plus materials as assigned.
- A computer with reliable internet and access to Canvas (with a grown-up's help).
- A space where making — and a little mess — is okay.

On-Demand (asynchronous). Scholars move through the course at their own pace, with due dates to keep the year on track. An Optima teacher is available throughout for support, feedback, and grading.

Live school. Live-school scholars take this same course on Optima's VR campus with a teacher and classmates, meeting twice a week as a specials class on the school's weekly schedule.
