

HOPE — Health Opportunities through Physical Education

Family Overview · Optima Academy Online

~4¼ hrs per week · ~50 min/day · semester

About this overview. This document is an example of how the course might be taught. More topics, activities, and projects are approved for this course than appear here, so scholars may see some variation in topics, activities, and projects from course to course, and between the live school and On-Demand. Each teacher also leans into their own strengths and passions; the structure, expectations, and time commitment below are representative of the course as designed.

ABOUT THIS COURSE

Florida's combined health-and-PE course. Scholars build personal fitness habits (including the skill-related components — agility, balance, coordination, power, reaction time, and speed), learn to fuel and care for their bodies, train in real first-aid and CPR concepts, and examine substance abuse and the brain — with quarterly live VR experiences alongside the asynchronous work.

THE YEAR AT A GLANCE

Unit 1 — Intro to Fitness & Wellness

Goal setting, fitness testing, muscular strength, cardio, flexibility, plus skill-related fitness (agility, balance, coordination, power, reaction time, speed) — sets the course's personal-fitness baseline.

~9 weeks

Unit 2 — Nutrition

Reading food labels, fueling the body, and a nutrition reflection essay.

~3 weeks

Unit 3 — First Aid & Heart Safety

Choking, cardiac emergencies & CPR, sudden illness, and target heart rate.

~4 weeks

Unit 4 — Substance Abuse & You

The brain and body, drugs and society, and family history.

~4 weeks

Capstone & projects. Unit 1 includes a HOPE PE Project; Unit 2 ends with a Nutrition Reflection Essay.

A TYPICAL WEEK

- One lesson page anchoring the week's health or fitness concept.
- An applied activity (e.g., Fitness Test Tracking Sheet, Food Label Investigator).
- A VR assignment at Optima's VR campus.
- Quarterly live VR experiences (Q1–Q4) and Office Hours run alongside the units.

TIME COMMITMENT

250 minutes per week (master schedule)

- Lesson reading & video: ~15 min/day
- Fitness / health activity (including physical activity): ~25 min/day
- VR session, quiz, or reflection: ~10 min/day

Project and capstone weeks may run longer.

WHAT SCHOLARS NEED

- Optima's VR headset (provided) for VR experiences
- Microsoft 365 / OneDrive account
- Microphone for voice-based work
- Space to move safely for physical-activity assignments
- Reliable internet

On-Demand vs. Live. On-Demand (asynchronous): self-paced with due dates for pacing; a teacher is available for support, feedback, and grading.

Live school: live-school scholars take the same course in Optima's VR campus with a teacher and classmates (daily for core courses). **Note.** A quarterly live VR experience runs alongside the asynchronous units. Live-school scholars take HOPE with a teacher and classmates in VR each day.
