

About this overview. This document is an example of how the course might be taught. Scholars may see some variation in songs, topics, and activities from course to course, and between the live school and On-Demand. Each teacher also leans into their own strengths and passions; the structure, expectations, and time commitment below are representative of the course as designed.

Second grade music is a journey through music history and the music of many peoples. The year opens with the building blocks — instruments and their families, rhythm, melody, quarter and eighth notes — and meets Bach, Mozart, and Beethoven early. Then the journey begins: medieval minstrels, knights, and troubadours; the music of ancient Greece and the lyre; holidays around the world; movie music and John Williams; the national anthem and the Civil War drummer boys; pioneer fiddles, Native American music, Mexican music, big bands and swing, and the immigrants who shaped American music. Every week pairs a Florida-standards lesson with singing, playing, and participation.

A TYPICAL WEEK

- ▶ A short lesson on the week's topic, tied to that week's **Florida state standards**
- ▶ A **participation activity**: singing, clapping, playing, moving, or responding

- ▶ A singing voice, brought willingly

MUSIC HISTORY, SIZED FOR SEVEN-YEAR-OLDS
