

About this overview. This document is an example of how the course might be taught. Scholars may see some variation in songs, topics, and activities from course to course, and between the live school and On-Demand. Each teacher also leans into their own strengths and passions; the structure, expectations, and time commitment below are representative of the course as designed.

Kindergarten music is a year of joyful first encounters. Scholars sing from the very first week, make their own instruments, and create their own music before learning any rules at all. Then, gently and through play, the building blocks arrive: finding the singing voice, hearing music at the zoo and in nature, feeling pitch, rhythm, and beat, shaping melody and dynamics, telling stories with sound, and meeting written notes for the first time. The year ends with new friends: famous composers and musicians, met through their music.

THE YEAR AT A GLANCE

Unit	Weeks	What little musicians do
Making Music Right Away	4	Sing a song, make a musical instrument, create your own music, and explore singing, speaking, and whispering voices
Listening to the World	3	Music at the zoo, music in nature, and a first look at pitch
Rhythm & Beat	4	Feeling, clapping, marching, and keeping the steady beat
Melody & Dynamics	3	How tunes go up and down, and how music gets loud and soft
Songs, Rhymes & the World	3	Fingerplays and rhymes, then music from around the world
Storytelling with Music	4	Using sound and song to tell a story
Music Through Creative Play	4	Games and imaginative play built on everything learned so far
First Musical Notation	3	A gentle first meeting with written music
Music & Movement	5	Moving, dancing, and responding to many kinds of music
Famous Composers & Musicians	4	Meeting great musicians through their music to close the year

A TYPICAL WEEK

- ▶ One weekly music time built around a **song or sound activity**
- ▶ Scholars **sing it, move to it, and play it** on real or homemade instruments
- ▶ A simple **make-and-do**: a craft instrument, a drawing, or a sound hunt
- ▶ A short response so the teacher can hear how it went

TIME COMMITMENT

80 minutes per week is the school's designated planning figure for this course — two short music times, or one relaxed family music session. At this age the best music practice looks like play; songs repeat on purpose, because repetition is how young children learn.

WHAT SCHOLARS NEED

- ▶ A computer or tablet with **speakers** — listening is half the course
- ▶ Room to sing, march, dance, and freeze
- ▶ Simple household materials for instrument-making (boxes, spoons, rice, rubber bands)
- ▶ A grown-up nearby to sing along never hurts

HOW LITTLE MUSICIANS GROW

- ▶ **Make first:** singing and playing come before any vocabulary
- ▶ **Then hear:** pitch, beat, melody, and dynamics get names once the ears know them
- ▶ **Then see:** written notation arrives only after a year of real music-making
- ▶ **Then meet the masters:** composers are introduced as people whose music scholars already love

NOTES FOR FAMILIES

On-Demand (asynchronous). This course is designed for self-paced study with due dates for pacing. A teacher is available throughout for support, feedback, and grading.

Live school. Scholars enrolled in the live school complete the same course in VR with a teacher and classmates on the school's weekly schedule.
