About this overview. This document is an example of how the course might be taught. This overview is drawn from the Florida course description and Optima's 2026–27 course plan rather than a fully built course, so scholars may see some variation in activities, skills, and experiences from course to course, and between the live school and On-Demand. Each teacher also leans into their own strengths and passions; the structure, expectations, and time commitment below are representative of the course as designed.

This comprehensive physical education course develops strength, coordination, endurance, and sportsmanship through age-appropriate individual and team activities, emphasizing lifelong fitness and personal responsibility. Instruction integrates classical virtues such as discipline, perseverance, and fair play, with reflective use of technology to support goal-setting, movement analysis, and healthy habits.

THE YEAR AT A GLANCE

1 Movement Competency (strand)

Mature movement patterns and manipulative skills in modified team, individual, and dual sports, with attention to body management, force, and safe technique.

Daily moderate and vigorous activity, plus designing, carrying out, and assessing a personal fitness plan supported by technology and clear goals.

5 Health & Wellness (strand)

Resiliency, character, and life-skills education, including healthy decision-making, goal-setting for personal health, and substance-use prevention.

2 Cognitive Abilities (strand)

The thinking behind movement: offensive and defensive strategies, the critical elements of a skill, and giving feedback by spotting and correcting errors.

4 Responsible Behaviors & Values (strand)

Sportsmanship, fair play, and personal responsibility: respecting others, handling peer pressure, caring for equipment, and behaving ethically in activity.
